NEW FEATURE!!! Automated Booking System NEW FEATURE!!!

On the List of Evenings page there is now a new link, Automated Bookings. This will take you into the new Automated Booking System which is an alternative method of making your bookings. Instead of using the traditional booking table, (which is still available behind the 'Bookings' link) the Automated Booking System allows you to simply select the teacher you want to make bookings with, for all applicable children, and set when you can attend the parents' evening. Then the system will work out the best possible times and allow you to edit/cancel or confirm the bookings. This

makes the whole booking process a lot quicker and easier.

Profile

Clicking on the Profile button on the main menu will take you to a new page where you can see all your personal details on record and edit the majority of the information. Certain fields like Parent's Title, Parent's Username, Child's Date of Birth and Child's Class cannot be edited.

Change Child

If you have multiple children in the school then you will be able to see the Change Child button on the main menu. This will take you to a new page where you can select one of the children connected to your account. Once you select a child the system will take you back to the List of Evenings page.

Managing Bookings

Above the Booking Table's Department and Teachers there are two buttons:

- **Teacher requests**

The Administrator or School Staff can now leave messages and requests for parents to make bookings with them. These messages will be displayed automatically for the parent when they enter the parents' evening.

- **Leave feedback:**

Any feedback will be sent to the school and to Netmedia Business Solutions. Many encouraging comments and suggested improvements to the system have been sent which has helped the system evolve.

There are four buttons to the right of the booking table:

- **How to make a booking**

This button displays a pop up box which explains how to make and cancel bookings:

“Please select the teacher you want to meet by clicking on an available slot. When you select one of the available slots, a pop up will appear and allow you to enter a question for the teacher. You can cancel bookings or add comments to the bookings that you have already made by clicking on the Green appointment slots again.”

- **Print your bookings:**

This will take you to a new page with your bookings listed in a printable format. There is a print button at the bottom of the page.

- **Email your bookings:**

The e-mail will be sent to the address entered during login or the address held in the system (if there is one). To update your e-mail address. Log out and login again, entering your preferred e-mail address on the login page or simply add your e-mail address on the Profile page.

- **Cancel all bookings:**

This will cancel all your bookings for this evening. A warning dialog appears to confirm.

The booking table shows the departments, subjects and teachers available for the evening. If there are multiple dates for the Parents' Evening then the booking table for each date is below the first booking table shown.

The bookings you have made are displayed to the right of the booking table for reference.

The Key shown in the How to make a booking pop up box describes the status of each of the slots on the bookings table.
